15. Personal Development Planning

Personal Development Planning (PDP) is a key aspect of all the performing arts courses at UCLan. PDP is integrated within all modules and across the totality of study. PDP, through the creation of a personal document referred to as a Progress File, helps you to define and focus your educational and professional aims and goals; it will assist you to consider how you can engage with the learning opportunities your course offers to achieve your personal career and professional objectives.

This course consists of modules with fixed syllabi that together enable you and your colleagues to gain the knowledge and develop the skills essential if you are to be a successful practitioner. However the course is designed to allow you to choose or negotiate many aspects of your learning in ways which are appropriate to your abilities, learning preferences and vocational intentions. Thus is referred to as a student-centred learning approach. When coupled with the self-monitoring and evaluation of PDP, you find that study shifts from a tutor-led/teaching activity to a personally-defined learning experience. This is close to the way many professional artists operate and the terms 'reflective practitioners' or 'thinking artist' describe the kind of graduate we expect you to become.
